If an ATV motor turns over, but doesn't start, and the battery seems to be fine, it's time to check out your ignition system. First, check out your spark plugs via a physical inspection. Look for any corrosion or gunk on the plug itself, and ensure that there is a small gap present in the spark gap of the plug.

ATV Troubleshooting: Most Common Issues - LiveOutdoors

Using the headlight, electric start and alarm (if applicable) too much will drain the battery. ATV does have the ability to charge itself but slowly. An optional charger can be purchased at any local automotive... Most new ATVs would have a full charge and it would be displayed on the battery ...
