For renowned hypnotist Jayson Sebastian Toscana, life has never been easy, or ordinary, from the day he and his twin brother drew their first breaths. Labeled a troubled child, he struggles to turn a new leaf. After putting trust in a friend turned foe, he suffers the worst act of betrayal. He makes a fresh start, but change proves hard, for evil and buried secrets sometimes fester, becoming larger and more threatening with time. As he teeters back and forth on the line of good versus evil, temptation visits him in the form of Dr. Ava James. Ava is an accomplished, cultured, and charming veterinarian. She has a host of close girlfriends, runs a thriving clinic, and helps both her furry patients and their owners. However, not everything is quite peachy-keen, for the good doctor suffers from a sleep disorder that has tormented her for the majority of her life: Ava is a notorious sleepwalker. Finally, she seeks help at the urging of her best friend. Upon meeting Jayson, his handsome looks, demeanor, and powerful mystique bowl her over. As they get to know one another, the ultimate no-no is now deliberated: Can Jayson date his patient? Love blooms but Jayson's past still haunts him, while Ava has a hidden REM state secret or two of her own. It takes the likes of Jayson Toscana to bring the darkness forth, to finally uncover what she's known all along but was unable to face...until NOW. Secrets are exposed, hearts are broken and healed, and love blooms-but can it last after all is said and done? And, can good finally trump evil? Step into the lives of Jayson Sebastian Toscana and Ava James and let yourself be hypnotized. The answers to these questions await...

Being a goddess is a lot less fun than you might think. Especially when you're only a half goddess, and you only found out about it recently, and you still don't know what you're doing half the time.

And when you've just used your not-so-reliable powers to burglarize the booby-trapped office of a vampire mob boss. Yeah, that part sucks. But that's just the tip of the iceberg for Cassandra Palmer, aka the Pythia, the freshly minted chief seer of the supernatural world. After all, Cassie still has to save a friend from a fate worse than death, deal with an increasingly possessive master vampire, and prevent a party of her own acolytes from unleashing a storm of fury upon the world. Totally just your average day at the office, right?

One dead body. One century-old haunted opera house. One zombie musical. One pissed-off detective. Will Violet "Spooky" Parker keep her tail out of trouble or will she end up as one of Deadwood's walking dead?

A solid introduction to basic continuum mechanics, emphasizing variational formulations and numeric computation. The book offers a complete discussion of numerical method techniques used in the study of structural mechanics.

Sophie Green the worst spy the British secret service has ever seen, is back and she's in love-with a car. Book two of the Sophie Green Mysteries. Her best friend is being stalked, and to find out why, Sophie has to solve a murder committed fifteen years ago.

Complicating the case is Docherty, whose brooding eyes and Irish accent get Sophie almost as hot as his Aston Martin-and her partner Luke, who may be sexy as hell but has all the interpersonal skills of a speeding bullet. Not that Sophie's going to allow the state of her love life to distract her from her mission. Much. Murder plots, stolen supercars, coolheaded mercenaries and mysterious artifacts? Must be a Tuesday. Warning, this title contains the following: guns, swearing, sex, dark thoughts about cheerful people, incomprehensible Britishisms, and painful sarcasm.

For the past two decades efforts to halt the decline in union numbers and revitalize the labour movement have largely resided in social movement unionism (SMU). In the first English-language book to compare SMU in Japan, Korea and the United States, scholars from the three countries examine its emergence as a response to neoliberal globalization. <I>Cross-National Comparisons of Social Movement Unionism moves beyond previous studies of SMU and union revitalization which have focussed on the United States, Canada, the United Kingdom and Australia. The eleven chapters offer empirical and theoretical analyses of the impact of SMU on existing labour movements, and explain the mediating factors that account for the diversity of SMU across national boundaries, arguing that its forms and activities are mediated by different institutional, political and economic contexts.
