My name is Nora Black, and I'm fifty-one-years young. At least that's what I tell myself, when I'm not having hot flashes, my knees don't hurt, and I can find my reading glasses. Elm also the proud owner of a salon called Scents & Scentsability in the small resort town of Garden Cove, where I make a cozy living selling handmade bath and beauty products. All in all, my life is pretty good. Except for one little glitch... Since my recent hysterectomy, where I died on the operating table, I've been experiencing what some might call paranormal activity. No, I don't see dead people, but quite suddenly Elm triggered by scents that, in their wake, leave behind these vividly intense memories. Sometimes they're unfocused and hazy, but there's no doubt, they are very, very real. Know what else? They're not my memories. It seems I've lost a uterus and gained a psychic gift. When my best friend's abusive boyfriend ends up dead after a fire, and she becomes the prime suspect, I end up a babysitter to her two teenagers while she's locked up in the clink. Add to that the handsome detective determined to stand in my way, my super sniffer's newly acquired abilities and a rash of memories connected to the real criminal, and I find myself in a race to catch a killer before my best friend is tried for murder.
