Looking at variation in speech and language use in Edinburgh Edinburgh is very diverse when it comes to its speech and language use. While some say they can recognise and even imitate an accent that they call 'Edinburgh English', the truth is that there are many people born, raised, and living in Edinburgh who don't necessarily speak in that way.

The study of variation and change is at the heart of the sociolinguistics. Providing a wide survey of the field, this textbook is organised around three constraints on variation: linguistic structure, social structure and identity, and social and linguistic perception. By considering both structure and meaning, Scott F. Kiesling examines the most important issues surrounding variation theory, including canonical studies and terms as well as challenges to them.

This book is a selection of Peter Trudgill's major works since 1990, appearing here in updated and revised form.

Describes the ways in which corpora can be utilised in sociolinguistic enquiry.

Reflecting a multitude of developments in the study of language change and variation over the last ten years, this extensively updated second edition features a number of new chapters and remains the authoritative reference volume on a core research area in linguistics. Sociolinguistics in Scotland presents a comprehensive overview of sociolinguistic research in Scotland and showcases developments in sociolinguistic theory, method and application, highlighting Scotland's position as a valuable 'sociolinguistic laboratory'. This book is a key resource for those interested in language use in Scotland.

Designed for beginning undergraduates studying for degrees in English, this textbook provides an introduction to a range of sociolinguistic theories and the insights they provide for a greater understanding of varieties of English, past and present. Drawing on both qualitative and quantitative approaches to sociolinguistic variation, the book provides a systematic overview such topics as:"English" as a social and as a linguistic concept"English speech communities"Social and regional dialectology in relation to varieties of English"English historical sociolinguistics, from Old English to late Modern English"Sociolinguistics and change in English"Outcomes of contact involving varieties of English"English and language planning"English, sociolinguistics and linguistic theory.The book contains data drawn from studies of English as it is used around the world. Throughout, there is an emphasis on facilitating a deeper understanding of linguistic variation in English and the social, political and cultural contexts in which speakers and writers of English operate.

This book explores the ways in which linguistic variation and complex social practices interact toward the formation of male interactional identities in a sports club in Dublin, illustrating the affordances of studying sporting contexts in contributing to advancing sociolinguistic theory. Adopting a participant-informed ethnographic approach, the book examines both the social interactional contexts within the club and the sociopragmatic and sociophonetic features which contribute to the different performances of masculinity in and outside the club. The volume focuses particularly on the linguistic analysis of humor and its multifunctional uses as a means of establishing solidarity and social ties but also aggression, competitiveness, and status within the social world of this club as well as similar such clubs across Ireland. The book ' s unique approach is intended to complement and build on existing sociolinguistic studies looking at linguistic variation in groups by supporting quantitative data with ethnographically informed insights to look at social meaning in interaction from micro-, meso-, and macro-levels. This book will be of particular interesting to graduate students and scholars in sociolinguistics, language, gender, and sexuality, and language and identity.

Investigates when and how preschool children acquire the vernacular norms of the community they come from.

Linguistics is a component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems (EOLSS), which is an integrated compendium of twenty one Encyclopedias.
