Songs of Innocence and of Experience is an collection of poems by William Blake. It appeared in two phases. A few first copies were printed and illuminated by William Blake himself in 1789; five years later he bound these poems with a set of new poems in a volume titled Songs of Innocence and of Experience Shewing the Two Contrary States of the Human Soul. William Blake was also a painter before the songs of innocence and experience and made paintings such as Oberon, Titania, and Puck dancing with fairies. "Innocence" and "Experience" are definitions of consciousness that rethink Milton's existential-mythic states of "Paradise" and "Fall". Often, interpretations of this collection centre around a mythical dualism, where "Innocence" represents the "unfallen world" and "Experience" represents the "fallen world". Blake categorizes our modes of perception that tend to coordinate with a chronology that would become standard in Romanticism: childhood is a state of protected innocence rather than original sin, but not immune to the fallen world and its institutions. This world sometimes impinges on childhood itself, and in any event becomes known through "experience", a state of being marked by the loss of childhood vitality, by fear and inhibition, by social and political corruption, and by the manifold oppression of Church, State, and the ruling classes. The volume's "Contrary States" are sometimes signalled by patently repeated or contrasted titles: in Innocence, Infant Joy, in Experience, Infant Sorrow; in Innocence, The Lamb, in Experience, The Fly and The Tyger. The stark simplicity of poems such as The Chimney Sweeper and The Little Black Boy display Blake's acute sensibility to the realities of poverty and exploitation that accompanied the "Dark Satanic Mills" of the Industrial Revolution.

Offers a general study of Williams's major work, with particular emphasis placed on the structure of the poem. Deals specifically with William's concept of the city, and also evaluates the poem in terms of epic tradition.

Seminar paper from the year 2004 in the subject English Language and Literature Studies - Literature, grade: 1, Otto-von-Guericke-University Magdeburg, 13 entries in the bibliography, language: English, abstract: " We have war, injustice, and unhappiness because our way of life is founded on mistaken beliefs. " This quotation by William Blake set me thinking and distracted me from my actual project: I wanted to write an essay on a poem. But during my work I, fortunately, ended up in a chaos of philosophical questions: Who are we? Where do we come from? Is our universe only a dust particle of something larger? Is there a force guiding us? Who or what is God? From time immemorial, people have been racking their brains over these ageless and puzzling questions, and I doubt whether we are able to provide convincing responses to them. Someone who might give us a wise answer is William Blake (1757 – 1827). He is considered to be the first major Romantic poet, and a central theme of his works is religion (e.g. The Marriage of Heaven and Hell, The Book of Urizen). Admittedly, there is no easy access to Blake because he is one of the most obscure and inscrutable poets. Nevertheless, I would like to make the daring attempt to uncover the secrets of Blake ' s religious mysticism. For this reason, I will discuss one of his first works There Is No Natural Religion (1788). My design is to make this essay accessible to a wide readership, especially to those who have so far avoided profoundly dealing with a particular topic: religion. I also had no serious interest in religion at all – until I started to learn Arabic. Once you have mastered " Allah ' s difficult but most ornate language " , you have got a completely different outlook on the world. Beside this, I felt an urgent personal need to deal with the concept of faith in greater detail. This has in part something to do with the changing idea and role of religion in the 21st century. Unfortunately, a number of armed conflicts have been provoked grounded on disagreements between several religious groups, and since September 11 people fear that a potential third world war will be a war of religions, a war between cultures. So this subject is of utmost relevance to the current events. I hope to provide a vivid, comprehensible and, above all, stimulating and entertaining essay. Keywords that I put in italics serve as a guide through our discussion. So let ' s begin and explore the (still) unknown spheres of religion. William Blake will give us a hand.

Bennett's *The Book of Virtues* has helped millions of Americans teach young people about character, *The Educated Child* delivers what you need to take control. With coauthors Chester E. Finn, Jr., and John T. E. Cribb, Jr., former Secretary of Education Bennett provides the indispensable guide. The tools and advice in this guide put the power where it belongs -- in the hands of those who know and love their children best. Using excerpts from E. D. Hirsch's *Core Knowledge Sequence*, *The Educated Child* sets forth a state-of-the art curriculum from kindergarten through eighth grade that you can use to monitor what is and isn't being taught in your school. It outlines how you can help teachers ensure that your child masters the most important skills and knowledge. It takes on today's education controversies from phonics to school choice, from outcomes-based education to teaching values, from the education of gifted children to the needs of the disabled.
