Were you looking for the book with access to MasteringA&P? This product is the book alone, and does NOT come with access to MasteringA&P. Buy the book and access card package to save money on this resource. With the Ninth Edition of Human Anatomy & Physiology, trusted authors Elaine N. Marieb and Katja Hoehn have produced the most accessible, comprehensive, up-to-date and visually stunning anatomy & physiology textbook on the market. Marieb draws on her career as an A&P professor and her experience completing her nursing education; Hoehn relies on her medical education and award-winning classroom instruction--together, they explain anatomy & physiology concepts and processes in a meaningful and memorable way. In the most extensive revision to date--the Ninth Edition presents information in smaller and more digestible bites, making it easier to read and navigate. The package contains: Human Anatomy & Physiology, Ninth Edition

tools-and improves on them with new and updated Focus Figures and new in-text media references. This edition also features vivid new clinical photos that reinforce real-world applications, and new cadaver photos and micrographs that appear side-by-side with art-all to increase students' ability to more accurately visualize key anatomical structures.

This edition includes in-depth coverage of the physiology of the heart, lungs and kidneys, offering coverage of the kidneys because of the renal system's role in maintaining acid-base balance and fluid volume, and because renal failure affects the health of the cardiopulmonary system.
