Accounting principles and applicability of IFRS -

IFRS standards are International Financial Reporting Standards (IFRS) that consist of a set of accounting rules that determine how transactions and other accounting events are required to be reported in financial statements. They are designed to maintain credibility and transparency in the financial world, which enables investors and business operators to make informed financial decisions.

IFRS - What are the IFRS Standards in Accounting

In the United Kingdom, there is a set of standards in place for annual financial accounting called the UK GAAP (United Kingdom Generally Accepted Accounting Principles). These principles are set in place by the UK Financial Reporting Council (FRC), and are a national version of the international accounting standards set by the IFRS. The accounting principles contained in the UK GAAP are only required for listed companies, though many non-listed businesses choose to follow them as well.
