Most issues include Current bibliography index of mammalian reproduction.

This updated edition provides an excellent overview of the diagnosis, prevalence and causes of eating disorders, as well as a handbook for the application of evidence based interventions. A "must buy" for eating disorder services and individual practitioners! Sally Savage, Clinical Lead for Northamptonshire NHS Eating Disorders Lifespan Service Affecting thousands of people every year with potentially devastating consequences, anorexia, bulimia and binge eating disorders are becoming increasingly evident in today's fast paced, high pressured society. Drawing on over 20 years' experience as a practitioner, Sara Gilbert takes the reader through the complexities of working with eating disorders, drawing on practical, cognitive behavioural and educational approaches to theory, assessment, treatment and practice. Packed full of new resources for both qualified professionals and trainees, this new edition includes:

- A summary of new research on the causes of eating disorders, dual diagnosis and co-morbidity.
- New content on the best treatment for eating disorders and preparing clients for treatment.
- An updated chapter examining the effects of nutrition on physical and psychological well-being.
- New content on working with complexity and risk.
- A fully updated reference section.

This is a vital resource for practitioners in the mental health field, including psychotherapists, psychologists, counsellors, psychiatrists, mental health nurses and dieticians. Sara Gilbert is a chartered clinical psychologist whose specialist interest in the field of eating disorders spans 20 years. She has worked for 12 years as a clinical lead in an eating disorder service in the NHS and is now in private practice.

This book explores a number of important issues in the area of occupational safety and hygiene. Presenting both research and best practices for the evaluation of occupational risk, safety and health in various types of industry, it particularly focuses on occupational safety in automated environments, innovative management systems and occupational safety in a global context. The different chapters examine the perspectives of all those involved, such as managers, workers and OSH professionals. Based on selected contributions presented at the 15th International Symposium on Occupational Safety and Hygiene (SHO 2019), held on 15-16 April, 2019, in Guimarães, Portugal, the book serves as a timely reference guide and source of inspiration to OSH researchers, practitioners and organizations operating in a global context.
