Shipping Law Handbook Lloyds Shipping Law Library

The expanded and fully updated second edition include detailed coverage of additional flag states; an examination of the implications of the ISM and ISPS Codes and the requirements of the Large Yacht Code as they relate to ship registration; a new introductory chapter describing the legal and practical requirements of ship registration; and a fresh analysis of the status and usage of national and open registries in current practice.

Laytime and Demurrage is the leading authority for all queries pertaining to this vital aspect of maritime law. It has continued to offer reliable, authoritative, and in-depth analysis since the first edition published in 1986. Praised for its unrivalled coverage and lucid writing style, this book provides a comprehensive overview of all aspects of laytime and demurrage, tracing the development of the law from its origins in the nineteenth century right up to the present day. The author delivers an in-depth analysis of both fixed and customary laytime clauses, the rules relating to commencement of laytime in berth, dock and port charters, and discusses under which circumstances laytime can be suspended. Furthermore, it analyses demurrage rules and vital issues such as despatch, detention and frustration. This seventh edition includes all key judicial and arbitral decisions reported since the sixth edition published in 2011. It also covers suffixes in connection with laytime measured in terms of Working days and Weather Working Days, and disputes arising from tender of NORs at the end of the sea passage. Laytime and Demurrage is an invaluable guide for both legal practitioners and maritime professionals worldwide, including commodity traders and brokers, shipping companies, P&I Clubs, shipowners, charterers, and arbitrators.

Acclaimed as the standard reference work on the law relating to time charters, this new edition provides a comprehensive treatment of the subject, accessible and useful both to shipping lawyers and to shipowners, charterers, P&I Clubs and other insurers. It provides full coverage of both English and U.S. law, now updated with all the important decisions since the previous edition. The English decisions covered in the new edition include: The Kos (the Supreme Court on the effect of withdrawing a ship with cargo on board); The Athena (nature of off-hire; meaning of 'loss of time' /time thereby lost'); The Kyla (damage to ship and frustration); The Silver Constellation, The Savina Caylyn and The Rowan (oil company approval of chartered ships); The Captain Stefanos, The Saldanha, The Triton Lark and The Paiwan Wisdom (effects of piracy); The Kildare and The Wren (damages for early termination); The T S Singapore (off-hire where ship going 'towards but not to' the port ordered), and The Lehmann Timber, The Bulk Chile and The Western Moscow (owners' liens) The new edition also features many significant new U.S. decisions, including: Stolt-Nielsen v. Animal Feeds Intl. (Supreme Court rules class-action arbitration not permitted unless parties agree in arbitration agreement); ATHOS I (Circuit Court finds that safe berth provision in charterparty is a warranty and not merely a due diligence obligation); The M/V SAMHO DREAM (arbitrators direct petitioner to post \$14.2M security on respondent' s counterclaim) and Maroc Fruit Board v. M/V VINSON (CP arbitration clause incorporated in bill of lading not "signed" or "contained in an exchange of letters or telegrams" under NY Convention).

Marine Insurance: Law and Practice, Second Edition, continues to provide the most comprehensive and integrated account of the English law and practice of marine insurance. It provides readers with a fresh and up-to-date review of the modern law in the light of traditional principles and rules of underlying commercial law, and the specific statutory rules of marine insurance as interpreted by case law, as moderated in practice by market practices and standard form marine insurance clauses. Francis Rose clarifies the law' s underlying framework of principles and illustrates how it works in common contractual situations, explaining how the different components of the law interact. The new edition has been updated to incorporate: • the most recent case law: there have been some very important judgments handed down since the book first published, including: The Cendor MOP, The Silva, The Resolute and The Marina Iris • the implications of the introduction of: Institute Cargo Clauses 2009, the effect of the Gambling Act 2005 and the Third Parties (Rights Against Insurers) Act 2010 Law Commission reform proposals The book explores in detail the following areas: • the nature of insurance • insurable interest • the insurance contract • the premium • insured risks • marine risks • exclusions • losses • claims • subrogation • double insurance

This practical book provides a standard introduction for lawyers new to maritime law and for other shipping and legal professions. Explaining both the traditional aspects of maritime law and looking at the current state of the law, with reference to key international issues, it provides the grounding that the professional needs to operate in today's environment. This revised work features the developments and significant cases which have occurred since the 1995 edition including: The 1996 Inter-Club Agreement; LOF 95; Trip Charters; relevant provisions of the 1996 Arbitration Act; the Merchant Shipping Act 1995; commentary on the 1992 Convention on Oil Pollution; emphasis on the increasing inter-relationship between EU law and English Admiralty Law; and recent cases and decisions concerning charterparties, salvage, collisions, and admiralty jurisdiction.

A previous winner of the Comité Maritime International' s Albert Lilar Prize for the best shipping law book worldwide, EU Shipping Law is the foremost reference work for professionals in this area. This third edition has been completely revised to include developments in the competition/antitrust regime, new safety and environmental rules, and rules governing security and ports. It includes detailed commentary and analysis of almost every aspect of EU law as it affects shipping.

Widely regarded as the leading authority on voyage charters, this book is the most comprehensive and intellectually-rigorous analysis of the area, is regularly cited in court and by arbitrators, and is the go-to guide for drafting and disputing charterparty contracts. Voyage Charters provides the reader with a clause-by-clause analysis of the two major charterparty forms: the Gencon standard charterparty contract and the Asbatankvoy form. It also delivers thorough treatment of COGSA and the Hague and Hague-Visby Rules, a comparative analysis of English and United States law, and a detailed section on arbitration awards. Key features of the fourth edition: The only textbook to deal specifically with this key area of maritime law Written by an impressive team of highly-regarded maritime authorities from both sides of the Atlantic Contains a wealth of updated English and American case law and arbitrations, as well as addressing broader issues such as Rome II Regulation Convention regarding the conflict of laws Practical user-friendly guide, which is accessible not only to lawyers but also shipping professionals A new, detailed United States law section on COGSA This book is an indispensable, practical guide for both contentious and non-contentious shipping law practitioners, and postgraduate students studying this area of law.

Thought to be the most comprehensive guide to English law relating to ship mortgages, the second edition of The Law of Ship Mortgages has been highly anticipated. This fully-updated and complete explanation provides practitioners with a practical, commercially-based, and definitive guide to the English law of ship mortgages as well as important related areas such as conflict of laws and insolvency. The authors, being seasoned practitioners themselves, bring their practical experience to bear on a number of difficult and developing areas of the law, such as: mortgagees' duties, liability to charterers, conflicts of laws, work-outs and cross border insolvency. New to this edition: In-depth analysis of noteworthy cases such as The WD Fairway litigation, PK Airfinance v Alpstream, and Tropical Reefer and Anton Durbeck v DNB Enhanced coverage of issues such as security interests in ships, priority, and third party involvement Completely revised and reordered content, to better reflect practitioner needs Written with practitioners in mind, this new edition will be extremely useful to legal professionals working in any jurisdiction that is involved in international ship finance, as well as post-graduate students and academics.

This book is an invaluable source of information about the claims in respect of which a ship may be arrested in the various maritime countries of the world, the conditions for obtaining an order of arrest, the need, if any, for a security, the manner by which the ship that has been arrested may be released, the possibility of a multiple arrest and the jurisdiction on the merits. Berlingieri provides an analysis and insightful commentary, on an article per article and paragraph per paragraph basis, of the 1952 International Convention for the Unification of Certain Rules Relating to the Arrest of Sea-Going Ships and the 1999 International Convention on Arrest of Ships (entering into force September 2011). New to this edition Updating of the information on the interpretation of the 1952 Convention in a number of Contracting States An analysis of the adoption of the rules of the 1999 Conventions in various States of the world, including China, the member States of the Communauté Économique et Monétaire de l'Afrique Centrale (Cameroon, Congo, Gabon, Tchad), the member States of the Comunidad Andina (Bolivia, Columbia, Ecuador and Peru) and Venezuela. This book is a useful reference tool for practitioners, as well as academics and post-graduate students of maritime law.

This is the leading text on shipbuilding and marine construction, already widely used on a global basis by shipowners, shipbuilders and their commercial and legal advisers. It is now ten years since the last edition and much has changed in the world of shipbuilding since then, particularly in the period since 2008 which has seen numerous attempts by owners to renegotiate the prices and/or delivery dates of tonnage and an enormous increase in the level of " vessel rejection " and cancellation disputes. The Law of Shipbuilding Contracts examines the principles of English contract law as these apply to shipbuilding. This edition comments in detail upon the Shipbuilders' Association of Japan Form but now contrasts this with the NEWBUILDCON from BIMCO in 2007 and the China Maritime Arbitration Commission Forms from 2011 where these are significantly different. It also includes sections dealing with agreements ancillary to the shipbuilding contract and conversion contracts. Overview of book: Since the last edition in 2002, China has become a major global exporter of newbuildings and new BIMCO shipbuilding contract form has been published. Although retaining the original format of commentary on the Japanese (SAJ) standard form shipbuilding contract, the new edition contrasts this with the BIMCO form and the recently published China Maritime Arbitration Commission (CMAC) form in order to provide a broad ranging analysis of this complex subject. The book details the principles of English contract law as these apply to international shipbuilding. It will, as in the previous editions, also include sections dealing with the guarantees and other agreements which support the shipbuilding contract and with ship conversion contracts Essential reading for: - Purchasers and charterers of newbuilding tonnage - Shipbuilders and offshore construction yards - Lawyers and insurers working in the maritime and offshore oil and gas sectors - Banks and other finance providers
