The real story behind the Tavistock Institute and its network, from a popular conspiracy expert The Tavistock Institute, in Sussex, England, describes itself as a nonprofit charity that applies social science to contemporary issues and problems. But this book posits that it is the world's center for mass brainwashing and social engineering activities. It grew from a somewhat crude beginning at Wellington House into a sophisticated organization that was to shape the destiny of the entire planet, and in the process, change the paradigm of modern society. In this eye-opening work, both the Tavistock network and the methods of brainwashing and psychological warfare are uncovered. With connections to U.S. research institutes, think tanks, and the drug industry, the Tavistock has a large reach, and Tavistock Institute attempts to show that the conspiracy is real, who is behind it, what its final long term objectives are, and how we the people can stop them.

Arguing that the race to better humankind is about to go to a new dimension as a result of a nanotechnological revolution, this enthralling read purports that the depth of progress and technological development is such that people in the very near future may no longer be fully human. TransEvolution discusses the transition from human to someone—or something—new and different and the increasing trend of implementing prosthetics, organ implants, bionic eyes, hearing aids, and other technological augmentations. Humans are capable of doing things they never imagined would be possible 20 years ago, and the rapid growth of this trend is nowhere near its end. But do the benefits of these advancements come with a price? Is humanity in danger because of this domination of science and technology? Bestselling author Daniel Estulin describes his vision of the future in which he believes the elite will employ their Promethean plans.

On November 8, 2016, the seemingly impossible became real: Donald Trump—billionaire tycoon with fundamentally xenophobic, savage, and populist speech—won the presidency and began endangering values like democracy and world peace. Author Daniel Estulin argues that nothing about this situation was accidental and that behind this terrifying event many interests are hidden. This volume asks: How did America get here? Was it a truly democratic event? And, above all, what are the interests behind the election of Trump? From his privileged status as a Russian ex-spy, Daniel Estulin dives into the long process that has led Donald Trump to the presidency. In *The Shadows of a Presidency* offers a behind-the-scenes chronicle of the actors, governments, companies, and institutions involved in his election and the payout it will yield for insiders.
