Focused deterrence seeks to change the violent behavior of gangs not directly targeted by the intervention by leveraging network ties between groups. This study appraises group-based and place-based methodologies in detecting direct and spillover crime reduction impacts of a focused deterrence strategy implemented in Oakland, California.

Office of Justice Programs
Gun Violence Prevention
Gun violence affects society in many ways, including higher medical costs, reductions in quality of life because of fear of gun violence and stresses on the criminal justice system. The United States has the highest rate of gun-related injuries among developed countries, as well as the highest rate of gun ownership.
